INTRODUCING—For Spring Delivery

With the same interest for more beautiful gardens I have always shown when making up the collections I have offered in my price lists, I have carefully selected the best from my seedling beds and truly believe Selah and OranJo to be a vast improvement on those already offered on the market today.

ORANJO H-50—Orange Beauty X Valiant.....\$10.00 net

Extra large, pure solid orange. All segments wide and full. Midseason, medium height, strong stems, many blooms, and a heavy increaser.

Named in honor of our JOE who returned from Oran. Hence pronounced as the Algerian seaport Oran and Joe as all of our Joes are called. This is to be spelled with a capital O and J.

Due to the heavy demand by our garden visitors we have kept this hemerocallis sold too low for the past four years for introduction. An authority on daylilies said, "This is a better daylily than High Noon." Which is indeed praise.

* * *

SELAH H-61 Wau-Bun X Valiant.....\$10.00 net

Pure rich even gold self. All petals heavily and evenly crimped. While the two top petals completely overlap each other, covering the sepal, they are long and pinched like the pod parent Wau-Bun, though much wider. The lower petal is a fraction under two inches wide. Perfectly balanced, symmetrical clump on tall slender stiff tems. Every bloom opens perfectly. Mid-season.

Sells on sight here and although I have wanted to introduce this for two seasons stock is still very limited. With the beauty of flower, strength of stem and wonderful fragrance it was decided only 'Selah' would do for its name.

We have several very outstanding seedlings that we will introduce in the 1953 Yearbook. Not for sale until after blooming season.

HEMEROCALLIS

... add just the right touch to your garden to bring out the charm and excitement you have been looking for. They are easily grown, and are so effective in the perennial border, in the foreground of the shrubby border, for naturalizing through partly shaded woods, along the banks of lakes and streams and are adaptable to any climate. They can be planted any time of the year when the ground is not frozen, but our experience has been that they do better if planted in the spring or just after they are through blooming. **DO NOT PLANT YOUR HEMEROCALLIS TOO DEEP.** Spread your roots well out and allow for one inch of soil over where the roots join the crown of the plant.

The rapid development and improvement in Hemerocallis is giving us splendid new varieties to brighten our gardens at a time of year when there is a scarcity of bloom in our borders. We now have beautiful Daylilies, up to eight inches across, in shades that vary from pinks, reds, wines, maroon to purple, in many interesting shapes and forms.

WORDS OF APPRECIATION

Although Walla Walla, Wash., is a long way from Richmond, Va., my daylilies arrived as green and fresh as though they had been brought from across the street. I can hardly wait for Spring. Thank you.—Richmond, Va.

I must thank you for sending me such lovely daylilies. The loveliest plants I have ever seen. They were packed SWELL.—Little Rock, Ark.

My last shipment of daylilies were delivered this morning and the plants are just wonderful; so green and husky after a 3000 mile trip. You are a very nice person and I trust we will have more business deals next year. Don't forget to send your price lists early so that I can order while supplies are complete.—Millville, New Jersey.

My order of hemerocallis was received Aug. 26th in EXCELLENT condition. As your catalog states they were certainly LARGE, STRONG plants. I had received another order just a few days before from a different firm that I thought were good but these were so much superior that there is no comparison. I shall be glad to recommend your plants very strongly to my fellow Garden Club members.—Minnesota.

To Our Many Friends Who Will Come and Visit Our Gardens:

Our new address, 731 Edgewood, does not mean that we have moved the gardens. We are still at the old location but we have sold all of the properties on Division Street and are living on the side street—Edgewood. Do come and see our Irises and Hemerocallis in blossom. We shou'd have a fine display this year.

We Are SPECIALIZING in Those Magnificent Varieties from SASS.

THE VERY FINEST WASHINGTON - GROWN TALL BEARDED IRIS

1953

GREETINGS to our many friends and customers. Although our garden is not as large as many others and it does not pay us to put out an elaborate catalog, it is a well known fact that there are no finer Iris plants obtainable than those we send out. This year we have enough stock of the finest of the Iris varieties to be able to offer you some super, money-saving specials—on next page. The Symposium is included to help those who do not get to see the Iris in bloom before they buy. (You can always rely on those Irises being the finest in existence.) We are careful to list only the best of the Irises as many varieties are not worth space, much less the high prices asked for them. If you live near enough so that you can, do come and visit us.

GENERAL IRIS LIST

AMANDINE (Douglas 1946). Large pale lemon cream self with delightfully ruffled broad full form of exquisite beauty. A.M. 1948.	\$3.00
ARABIAN NIGHTS (Whiting 1950). An attractive blend of bright peach, yellow, pink and rich copper. Good form and a fine doer.	2.50
ARGUS PHEASANT (DeForest 1948). A smooth soft brown self that's become famous in a short time. Huge with broad flaring falls and wide standards. A.M. 1950. Dykes Medal 1952 ..	7.00
ARLENE WOOD (Wood 1953). Standards are beautiful dove orchid, tightly closed in a whorl. Falls an intense lilac orchid. Probably the heaviest ruffled iris to date. Large full form.	10.00
AUBURN (Klein. 1945). A new color in Iris is this vivid coppery henna-brown self. Early, well-formed and makes a striking clump. H.M. 1946.	2.50
BANDED BEAUTY (Sass 1948). A striking plicata of soft yellow with red-brown markings so heavily marked as to give a banded effect.	2.00
BLACK RUBY (Dolman 1949). An early, almost black-red Iris with extra smooth and glossy finish. No haft markings.	2.00
BLUMOHR (Marx 1949). Pure lavender blue with no veining. Huge, rounded flowers of exceptional quality. One of the most beautiful new Iris. A.M. 1952.	7.50
BLUE VALLEY (K. Smith 1947). Huge ruffled true blue. Great Lakes looked lavender in comparison. Truly worthy of all the praise it has received. A.M. 1949.350
BOLD COPPER (Sass 1950). Dark tan to brown blend, many ruffled flowers. Said to be the most glistening of all.	7.50
CAMPFIRE GLOW (Whiting 1947). Glowing ruby self, heavily overlaid with bright copper, giving it a metallic sheen. Wide and full with no haft markings. H.M. 1947.	5.00
CARDINAL'S ROBE (Lyell 1949). Brilliant deep purple, a flaring slightly ruffled self. This is a very fine purple. Extra fine clump.	3.00
CENTURIAN (Wills 1950). A rich burnished brown self with big round shaped flowers of firm substance and excellent carrying qualities. H.M. 1950.	8.00
CHAMOIS (Kleinsorge 1946). Very large, beautifully formed, satiny, pure chamois self. Entirely different and wonderful in every way. A.M. 1948.	2.00

ZANTHA (Fay 1947). Very large deep yellow self, clear and clean with a deep yellow beard and no haft markings. Nicely formed, tailored and flaring. A.M. 1952.	3.00

WORDS OF APPRECIATION

I have always had wonderful success with your Iris for the past three years and I believe there are no better plants to be had anywhere. Thank you so much for your free gift; it is one I wanted.—KANSAS.

Have purchased Iris from several growers but believe that the ones I received from you were finer plants and grew off better than any I received from other growers.—ARKANSAS.

Received the Iris shipment this morning and I cannot find words to express my appreciation of your liberal treatment. I have ordered Iris from lots of places but never from anyplace more liberal and the nicest rhizomes I have ever received. I can recommend you to anyone who wishes liberal and fair treatment and quality merchandise. Again thanking you and hoping to hear from you next season.—INDIANA.
